

The 3Gtms Quick Ship Portal: Rethink what a TMS can do for your Customers

In an industry that's often perceived to be commoditized, you're constantly looking for ways to stand out. As a 3PL, empowering your customers with an intuitive but comprehensive client portal makes their lives easier and more productive.

The 3Gtms Quick Ship Portal is built on a new framework that reimagines your customer's experience and expands their shipment visibility. With an entirely new interface and streamlined screens, it resets your assumptions of what a transportation management system (TMS) can accomplish.

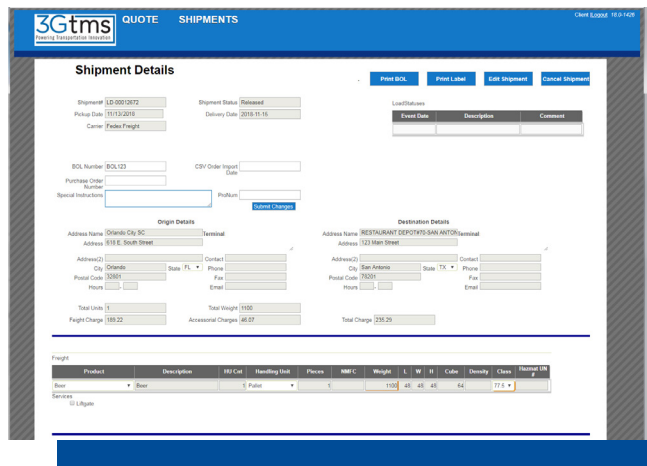

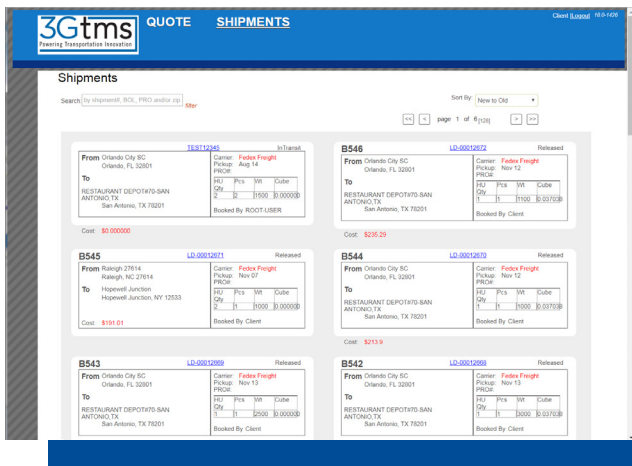

Most TMS systems require shippers to search and move from screen to screen in order to accomplish daily tasks. With the Quick Ship Portal, everything is presented on simple, elegant screens that maximize the user experience.

- ✓ A new interface and framework create an intuitive environment for untrained users.
- ✓ Differentiate your services with a portal that offers your customers everything they need and nothing they don't, so work gets done faster and easier.
- ✓ Give your customers the power of a full-function TMS – not a simple rating tool like other providers' offerings.

Key Features

- Easy-to-use design helps any level of user work faster, such as getting a quote, executing shipments or searching for exceptions.
- Nothing to set up or configure; the Portal comes ready to use and can be customized with your logo and color scheme.
- Built directly into 3Gtms' 3G-TM system, the Portal uses 3G-TM rates, workflows and user logins.
- Screens that can be customized according to your specific workflow and requirements.
- A simple mapping screen showing the shipment from origin to destination.

For Röhlig, a logistics services provider, the 3Gtms Quick Ship Portal differentiates the LSP from its competitors. "We're thrilled to offer our shippers a Portal that's clean, straightforward, powerful, and fine-tuned to their needs," said Ryan Murphy, Vice President Domestic Transportation North America, Röhlig. "Routing LTL freight can be complex and time consuming, but the new Portal from 3Gtms streamlines and simplifies the shipping process for our customers. We've been able to meet industry demands and differentiate our services."

Ryan Murphy, Vice President Domestic Transportation North America , Röhlig

We are a Different Kind of TMS

Transportation execution is the glue that holds your supply chain together. Created for shippers and logistics service providers, our uniquely designed TMS manages all activity from planning and optimization through rate management, integration, execution and payment.

Fundamentally Different

An architecture and design distinct from anything else on the market.

Most Flexible

The power to self-configure; unique routing concepts; proprietary algorithms.

Highest Satisfaction Rate

The happiest customers and highest retention rate in the industry.
